# ABOUT US

Arena Investment is a market-leading provider of financial CFDs. Our platforms provide clients with intelligent trading tools and consistently low pricing. Our team of highly trained, highly regulated analysts at Harrington are organized by a concise web stretching across all developmental activities, to capitalize on modernization across markets and industries. We create customized, integrated investment solutions to meet the unique needs of insurers and pension plans..

Arena Investment holds three separate registrations with the Commodity Futures Trading Commission as a Swap Execution Facility, Designated Contract Market, and Derivatives Clearing Organization. Our certified experts are always ready to advice and direct your investment choice and help curb potential risks. Arena Investment is the first registered digital asset investment company that provides services with a secure and fast transaction infrastructure developed by world standards.

# Our Mission

We decided to attract not only big strategic partners represented by private organizations and legal entities from different business sectors, but also private individuals online in order to introduce significant changes into the roadmap of our company. We undertake to use the attracted resources only to supplement the investment portfolio and increase the volume of exchange deals, to upgrade the skills of our staff, and to improve the general potential and competitive performance of our company in the market. In turn, private investors get the opportunity to employ their spare capital and receive great dividends..

A registered company for cryptocurrency investments solution.. We give a chance to new, dynamically developing ICO projects that bring huge profits in an amazing short time. Join Us by choosing one of our plans today. We are a dynamic group whose main focus is to provide our clients with the best possible service. We diversify portfolio management through trading of different commodities and assets in the capital markets at large, and also we earn through the crypto space through mining of promising Coins, afterwhich royalties earned through mining and switched into a more secure platform which is Stocks and Foreign exchange trading...
